## About Our Products

Conni was founded on the idea that those who are living with incontinence should be afforded dignity. This set the tone for developing products that were discreet, comfortable and fashionable. By listening to our customers, many of whom were clinicians working in the incontinence sector, we were able to develop products that met the needs of those who were unable to find functional and fashionable products. Our range has expanded and evolved over the past 20 years and has continued to provide a cost-effective and environmentally friendly selection of products to those who seek comfort, affordability and dignity to assist them in their self-management of bladder loss.

There is widespread concern about the use of toxic substances in fabrics used next to the skin because of the negative and sometimes long-term effects on health. Unlike many incontinence products our Bed Pads, Mattress Protectors and absorbent underwear are free of chemicals and fragrances. Our Conni products are Oeko-Tex accredited and safe to use against the skin.

## Conni Reusable Bed Pads

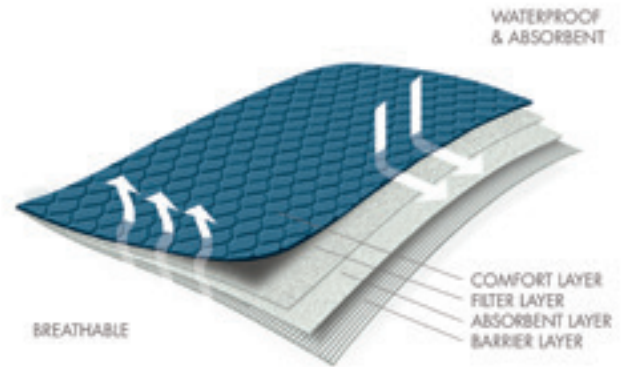

Say goodbye to the days of daily cycles of wet, wash, dry and repeat with your sheets. Conni absorbent and waterproof bed pads assist in managing incontinence, bedwetting and toilet training. Our Conni Bed Pads are designed to hold at least two full adult bladder voids over an eight hour period. They are the perfect addition to any bed that requires full void protection.

Conni Bed Pads can be washed and reused countless times and are a cost-effective and environmentally sustainable alternative to disposable bed pads. Our convenient sizes are universally suitable for all mattress types.

## Conni Absorbent Chair Pads

The Conni Chair Pads are absorbent and waterproof pads designed to assist in the management of incontinence when out and about or on seated furniture. The chair pads also include small rubberised dots in order to prevent the pad from moving. Use in places such as the seats in your vehicle, wheelchair or scooter, recliners or lounge chairs. The stay-dry top layer and slim absorbent core ensure comfort while the waterproof-breathable backing protects all seats, keeping them hygienic and stain free.

Not only can you use your Conni Chair Pad for seated areas, but they can also be used for diaper changing, tummy time for babies, sitting during toddler playtime, in the trunk of the car, or after a water activity.

## Anti-Slip Floor Mats

The Conni Absorbent Mat is designed to sit firm and flat on the floor to help prevent trips and slips in areas where liquid might be spilt. The non-splash surface absorbs fluid making it perfect in wet areas such as bathrooms and kitchens. Also, works well in protecting carpets from stains and odors. It can be used next to the bed or chair for leaks that may occur and is excellent under toilets and IV stands.

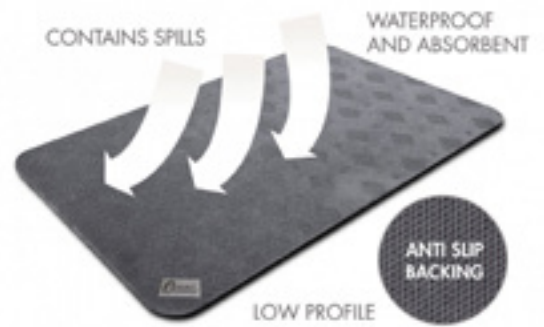

Anti-Slip performance is best achieved when the mat is used on a clean, smooth and flat non-textured floor. Some floor cleaning products may interfere with the performance of the product.

# Anti-Slip Floor Mats

## Containment Swim Shorts

Conni Containment Swim Shorts are specifically designed to stop fecal matter from entering the water. The fabric used is impermeable, meaning that nothing will pass through it. It behaves similarly to a wetsuit that divers use except it is a lot softer, thinner and has more stretch. For further protection, there are built-in vacuum seals around the inside leg openings designed using a unique strip of fabric which gently attaches to the skin when wet. There are toggles at the waist and legs to adjust the fit. The shorts should be worn with the waist and legs pulled tight but comfortable.

There is a built-in brief designed to capture any solids, but in all instances it is recommended for the wearer to remove themselves from the water immediately after any bodily event described. It is advised to seek a toilet or shower to remove the swim short and wash the garment down before re-entering the water. The garment can be re-worn when it is wet.

Disposable pads are not recommended to be worn with swim shorts.

## Kids Containment Swim Shorts

Conni reusable swim shorts are designed to contain bladder and bowel matter.

Our technology provides kids with a safe, secure and confident aquatic experience when those unexpected accidents occur, delaying void-causing germs from leaking into the water. Flexible and comfortable with a built-in brief, Conni Swim Shorts feature an adjustable drawstring with toggle at the waist and legs for a secure fit.

Keeping germs out of the water is key to keeping everyone healthy and helps keep the places we swim open all year round. Conni swim shorts can be reused countless times and is a cost-effective and environmentally sustainable alternative to disposable products.
